UNCONVENTIONAL MURAL SERIES

The Short North Alliance and 10 partner galleries and art institutions, with the support of the Experience Columbus, present the sixth rendition of the highly popular Short North Temporary Mural Series titled Unconventional: A community-curated celebration of our unconventional city.

The murals are installed on the exterior brick facades of 10 buildings along High Street in the Short North Arts District. They consist of high resolution images of art works that are printed on vinyl and heat-adhered to buildings. The process results in a work of art that looks painted on the building. Explore the murals and the art of the Short North!
