About the Fifth Avenue and Fourth Street Special Improvement District

The Fifth Avenue and Fourth Street Special Improvement District (54SID) was created in 2020 and authorized through 2025 to serve the Fifth Avenue and Fourth Street commercial corridors and several adjacent streets. A Special Improvement District (SID) is a mechanism through which property owners petition to voluntarily assess themselves to provide funding for extended services aimed at the enhancement of the area. A SID identifies a plan of services and then funds are used to support those services. 54SID services include clean and safety programs led by the 54SID Ambassador Team, beautification, public art, and placemaking projects that emphasize community connectivity, and more.
